Scope: this list is limited to solid wood furniture (classroom, kindergarten, and school furniture) made or distributed for Waldorf/Steiner education — toy makers and non-furniture suppliers from the earlier list have been excluded. Emails are general company/customer-service contacts sourced from official sites where available; verify before commercial outreach as details can change. Not exhaustive.

Gaps: no verified Waldorf/Steiner-specific wood furniture manufacturer with a public company email was found for Spain, Italy, Denmark, Norway, Finland, or Sweden. Denmark has 13 Steiner schools (per steinerskoler.dk), but its main Steiner retailer (Steinerbutikken) sells art/craft/play materials, not furniture; Wood If is listed as the closest Danish wood furniture maker. Norway has roughly 33 Steiner schools and 44 Steiner kindergartens, but no dedicated Steiner furniture supplier was confirmed; Forest Kids Norway is listed as the closest match (natural wood, but Montessori-branded). Finland's Kuopion Woodi Oy is the country's leading wood kindergarten/school furniture maker but doesn't advertise Waldorf/Steiner specifically, so it's listed as the closest match rather than a confirmed fit. Sweden is home to Telleby/Debresk (Järna) — founded by former pupils of the local Waldorf school and based in the well-known anthroposophic community there — but they make wooden toys and small dollhouse furniture, not classroom/kindergarten furniture, so they were left off the table entirely. Russia's Belkadesign is the one entry in this batch confirmed to have furnished Waldorf preschools directly. All flagged alternatives are included for reference, not as confirmed Waldorf furniture suppliers unless noted otherwise.
