Waldorf Boarding Schools — Worldwide

A small number of Waldorf and Steiner schools around the world offer residential boarding

What is a Waldorf boarding school? A small number of Waldorf and Steiner schools around the world offer residential boarding — students live on or near the school campus during term time, immersed in the full Waldorf rhythm of work, art, nature and community life. Waldorf boarding schools are rare and precious — they offer a particularly deep experience of Waldorf education, where the daily and weekly rhythms extend beyond classroom hours into the fabric of daily living.
